

COHESION CULTURE™ CORE

IN-PERSON

REMOTE

HYBRID

KEEPING YOUR TOP TALENT COHESIVE, PRODUCTIVE & ENGAGED

Cohesion Culture™ CORE (Communicating Open-Minded Real-Time Engagement) is an energetic hands-on team building adventure. Combining the principles of *Cohesion Culture: Proven Principles to Retain Your Top Talent* with experiential activities for immediate application, The CORE is a versatile, customizable program that can be adapted to meet the needs of any organization.

On Purpose gamifies your company concerns, creating puzzles that can be solved and challenges that can be won, all while laying the foundation for a Cohesion Culture™: a work environment where employees have a sense of belonging, feel valued, and share in mutual commitments including overall company prosperity.

Participants are forced to drop their workplace facade in the face of comfort stretching challenges, with real-time responses to stressful situations offering insight and learning opportunities that reverberate through every aspect of their lives. Often called a steroid shot, injecting this experience into your team dynamic rebuilds your people into a high functioning unit again.

By focusing on leadership style, communication, and situational responses, *The CORE* guides members through defining what kind of leader they are, understanding their own strengths and weaknesses, and effectively utilizing this knowledge alongside their team members to find solutions and success.

ON PURPOSE TEAM BUILDING

BY ON PURPOSE ADVENTURES

We have had several companies assist with team building before, but this time we actually took away “lessons” to use in the work place.
— Jennifer J., Director, Physician’s Plan

On Purpose hosted an amazing team building for our staff! Our team ranged from 18 to 60 years old and everyone had a great time that was talked about for weeks!
— Ashley C., Systems & Projects Manager, Kiawah
